

THE CORPORATION OF THE TOWN OF ERIN
MUNICIPAL CLASS ENVIRONMENTAL ASSESSMENT
RECONSTRUCTION OF STRUCTURE 2061
PUBLIC NOTICE OF SHEDULE CHANGE

On September 24th, 2014, a public notice of study commencement was released by the Town of Erin for Structure 2061 at Sideroad 24 along the Upper Eramosa River. At that time, the study was to proceed in accordance with a Schedule "B" of the *Municipal Class Environmental Assessment* (Class EA) process. As part of the process, the Ministry of Tourism Culture and Sport (MTCS) reviewed the Cultural Heritage Evaluation Report and confirmed the structure as retaining no cultural heritage value. Along with this observation by MTCS and as the purpose for structure upgrades are to meet current Ministry of Transportation Roadside Safety Standards; this study has been re-classified as a Schedule "A" project. The implications of this

schedule change are that the Class EA process is simplified and the project becomes pre-approved. Appropriate approvals agencies will continue to be involved in granting permits as required.

All up-to-date project information can be found on the Town's website under the following link; <http://www.erin.ca/Notices/> and at the Town of Erin Public Works Department, 5684 Trafalgar Road, Hillsburgh, ON N0B 1Z0 Telephone: (519) 855-4407.
