

Town of Erin Fire & Emergency Services

EMERGENCY KEY BOXES

TO: PROPERTY OWNERS

The Town of Erin has received many offers to have access keys for various properties in the Town. Many people want the fire department to have access to the property, however many property owners in the Town have a locked gate to their property.

In an effort to alleviate this problem the Town of Erin Fire & Emergency Services has adopted a program utilizing emergency key security boxes. These boxes are to be installed at the main gate entrance and contain a key to permit entry onto the property. The installation of these boxes is strictly voluntary.

INSTALLATION

1. To purchase your key box please come in to the Town of Erin Office located at 5684 Trafalgar Rd, Hillsburgh. Please Note: only boxes supplied by the Town will be accepted.
2. After the installation is completed please contact Fire & Emergency Services to verify the installation. A fire department officer may attend to verify and test the emergency key box.
3. Property owners may store gate access keys only. Keys for your residence access will not be accepted.
4. The box can only be opened by the Fire & Emergency Services. Therefore, please notify our department when changing of the keys is required.

Thank you for assisting Fire & Emergency Services with access to your property. The emergency key box program will reduce our response time to your residence and reduce property damage.

To purchase your emergency key box please contact Shelley Ballantyne at (519) 855-4407 ext. 254 or via email shelley.ballantyne@erin.ca

Should you have any questions or require additional information please contact Chief Fire Prevention Officer Len Papp at (519) 855-4407 ext. 238 or via email len.papp@erin.ca
