

ATTENTION MUNICIPAL WATER USERS

Water Tower Maintenance

The Town of Erin Water Department will be performing maintenance to the Water Tower this spring.

The Water Tower will be offline from

Monday May 1st to Tuesday May 9th, 2017

The Town will continue to supply safe, clean drinking water to municipal water users throughout this project.

From Monday May 1, 2017 to Tuesday May 9, 2017, the Town is asking all municipal water users to voluntarily reduce non-essential outside water use to decrease stress on the Town's water distribution system.

For questions or concerns please contact the

Water Department @ 519-855-4407, extension 253

Thank you for your patience and cooperation.
