Candevcon File No. W21081**

Dear Tanjot,

On behalf of Hillsburgh Heights Inc., we are submitting the enclosed materials in support of a third and final submission for the Official Plan amendment, Zoning By-law amendment and Draft Plan of Subdivision application for the subject lands.

The applications has been revised to address the Town and County comments related to the proposed development. The revised plan consists of one hundred ninety-five (195) single-detached lots and six (6) townhouse blocks containing approximately one hundredes seventy four (174) units. The revised plan has reduced the developable area retaining lands in the north portion of the site for future development. A hold provision has been placed on these lands to be brought back for development upon meeting certain development conditions. The plan also includes blocks for a school, a park, and two stormwater management ponds. The revised plan includes additional lots with frontage of 13.7 metres increasing the variety of lot sizes from 13 metres to 21 metres distributed throughout the subdivision. The townhouse blocks are predominately within the central west location adjacent to the Collector Road with a cluster in a location situated close to Trafalgar Road North. The two stormwater management ponds are at the southern corners of the site while the park and school blocks are situated in a central location near the roundabout at the entrance of the subdivision.

The third and final submission with supporting documents were prepared in response to the Town, County and Agency comments.
