### Sideroad 17 to remain closed till February for culvert replacement

The Town of Erin is advising residents that due to unforeseen circumstances, the closure of Sideroad 17 will be extended to the end of February in order to complete culvert replacement.

Project engineering consultant R.J. Burnside & Associates advised the Town that unique soil conditions and bedrock in the area has slowed down progression of the culvert replacement project.

Local access will be maintained at all times for residents and businesses from either the west, east or north, however, through-access will not be permitted.

There will be no access to 8th Line north of Sideroad 17, and road closures signage will remain in place.

Three detour routes will be posted to limit the impact on motorists and the Town is currently completing a snow removal plan for the impacted area.
