

**NOTICE OF INTENTION TO DESIGNATE
By the Corporation of the Town of Erin**

18 Anne Street, Hillsburgh

TAKE NOTICE that the Council of the Corporation of the Town of Erin intends to designate the following property as being of cultural heritage value or interest under Section 29(1) of the Ontario Heritage Act, R.S.O. 1990, Chapter O.18.

18 Anne Street

Description of the Property

The subject property is legally described PART LOTS 2, 3, 4 PLAN 240, Town of Erin, with a civic address of 18 Anne Street. The property is located on a residential side street within the core of the historic village of Hillsburgh, in the Town of Erin. It consists of a two-storey Italianate residence constructed between 1904 and 1907 as a residence for stonemason Charles H. Smith.

Statement of cultural heritage value or interest

18 Anne Street is a representative example of the Italianate architectural style. The two storey, square plan building has a rhythmic and balanced façade, small balcony, hip roof, and wide overhanging eaves with paired decorative wood brackets which are all key features of the Italianate style. The limestone quoins, segmental arched window openings with limestone keystone and stringers framed by limestone reveal quoining in contrast to the multicolour fieldstone with raised tuck point construction provides a sense of heaviness and stability, which is often found in Italianate buildings constructed of stone.

18 Anne Street is a well-built structure with stone masonry which displays a high degree of craftsmanship within the local context. The stonework suggests an Aberdeen bond design which is achieved through the use of tuckpointing. The use of limestone in the quoins, and window treatment including demonstrates a level of skill and masonry knowledge that does not appear to be a common in the local context.

18 Anne Street is directly association with local stonemason and builder Charles H. Smith. Charles, and his brother William, were well-known masons who along with a team of tradespeople constructed several buildings in the area in the late 19th century and early 20th century. The Smith brothers constructed the stone foundations, Robertson and Puckering were responsible for bricklaying and plastering, and Alex Hyndman, the father of Charles wife Orpha and local carpenter, along with a team of painters from Orangeville are credited with the construction of several houses in the community. The Royal Bank building (97 Trafalgar Road), built in early 1880's is an example of the workmanship of this group. Charles is associated with the construction of 18 Anne Street and was also responsible for the construction of the Station Street bridge in 1917, although the bridge was replaced in 2020.

18 Anne Street is important in supporting the 19th century and early 20th century character of the historic village of Hillsburgh. Several residential side streets were developed at the same time as the core Historic Village of Hillsburgh and supports the legibility and character of the historic village. Located off or parallel to the main street (Trafalgar Road), the buildings are comprised of predominantly one to two-and-a-half storey residences, primarily
